I	Other family					✓	✓	✓	✓	✓	✓	✓	✓
J	Access to children		✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

How to use the table: Identify what type of household you are (see the notes below) and then look across the table above to see what sizes and types of property you can bid for as shown by the ticks.

Notes

Single person - this is where there is only one person who has applied to be rehoused.

Couple - this is where there are 2 people who are in a relationship.

Families - Where a member of the household is pregnant the number of children in the household is increased by one. For example a family with 1 child where the mother is pregnant with the second child and has informed the Council of her pregnancy will be classed as a family with 2 children

Family with 5 or more children - you will be able to bid for properties with 4, 5, 6, 7 or 8 bedrooms.

2 adults (including carer) - this can include where someone has applied with their carer or where friends or 2 family members such as siblings have applied to be rehoused together

Other family - this is where there is more than 2 generations in a household, for example a grandmother, parents and children apply to be rehoused together. Contact us on 01263 516375 to find out what

Access to children - where a household has access to children who do not live with them permanently the size of property they are able to bid for can be increased. This will depend on how often and for how long the child or children stay and whether there are already children in the household. Contact us on 01263 516375 to find out what size and types of property you are eligible to bid for

Housing Association Tenants who live in North Norfolk - If you are a Housing Association tenant who lives in North Norfolk and you are a single person or a couple you will be able to bid for all types of properties which have 1 or 2 bedrooms (including 2 bedroom houses which you would not otherwise be able to bid for, this is shown by the \$ symbol in the table above).
