APPENDIX B

National, Regional and Local Policy

B. NATIONAL, REGIONAL AND LOCAL FRAMEWORK

INTRODUCTION

B.1 National, regional and local strategies and initiatives provide a framework to influence the development of an Open Space Study. Sport, open spaces and recreation all contribute to people's quality of life and consequently cross a number of national and local government competences including; planning, leisure and recreation, health, education and crime. Table 2.1 illustrates the relationship of the Strategy process to other guidance, strategies and initiatives. The Companion Guide accompanying PPG17 recommends that open space assessments consider the implications of national, regional and local strategies in order to ensure that the multifunctional role of open space is recognised within the assessment. The implications of the relevant strategies relating to the District are considered below.

NATIONAL POLICY

Urban White Paper

B.2 In November 2000 the Government published its Urban White Paper "Our towns and cities: the future - Delivering an urban renaissance". The White Paper recognises that well managed public open spaces improve the attractiveness of urban areas and help to promote a healthier lifestyle. It also highlights the need for improvements in their management and maintenance.

B.3 The White Paper identifies the need for more imaginative thinking about open space planning and design and proposes three key areas of action:

- ◆ Development of a shared vision for the future of our parks, play areas and open spaces;
- ◆ Improved information on the quality and quantity of parks and open spaces and the way in which they are used and maintained;
- ◆ Improved planning and design of new parks, play areas and public spaces and the management and maintenance of existing ones.

- B.4 This study will provide the up to date information and analysis of open spaces in North Norfolk to inform the shared vision and improve management and protection measures.
- B.5 The Urban Parks Forum and an Urban Green Space Task Force was established and given a remit to advise the Government on its proposals for improving the quality of urban parks, play areas and green spaces. To address the problem of the poor state of open space and recreation facilities the Urban White Paper promised new planning guidance on open space, sport and recreation (PPG17). It specifically referred to 'parks, play areas and public spaces', recognising that they were "vital to enhancing the quality of urban environments and the quality of our lives".

PPG 17 – Sport, Open Space and Recreation

- B.6 Planning Policy Guidance 17, *Sport, Open Space and Recreation* (2002) states that open spaces, sport and recreation underpin people's quality of life and are fundamental to successfully delivering a number of strategic Government objectives, outlined below:
- ◆ **Supporting an urban renaissance** – local networks of high quality and well managed and maintained open spaces, sports and recreational facilities help create urban environments that are attractive, green and safe. Green spaces within urban areas perform vital functions as areas for nature conservation and biodiversity and by acting as 'green lungs' can assist in meeting objectives to improve air quality;
 - ◆ **Supporting rural renewal** - the countryside can provide opportunities for recreation and visitors can play an important role in the regeneration of the economies of rural areas. Open spaces within rural settlements and accessibility to local sports and recreational facilities contribute to the quality of life and well being of people who live in rural areas;
 - ◆ **Promotion of social inclusion and community cohesion** - well planned and maintained open spaces and good quality sports and recreation facilities can play a major part in improving people's sense of well being in the place they live. As a focal point for community activities, they bring together members of deprived communities and provide opportunities for people for social interaction;

- ◆ **Health and well being** - open spaces, sports and recreational facilities have a vital role to play in promoting healthy living and preventing illness, and in the social development of children of all ages through play, sporting activities and interaction with others; and
 - ◆ **Promoting more sustainable development** – by ensuring that open space, sports and recreational facilities (particularly within urban areas) are easily accessible by walking and cycling and that more heavily used or intensive sports and recreational facilities are planned for locations well served by public transport.
- B.7 In establishing the value of existing recreational facilities to the community and the need for new facilities, PPG17 recommends that Authorities should undertake robust assessments of the existing and future needs of their communities for open space, sports and recreational facilities. Guidelines describing how such assessments should be completed are set out in 'Assessing Needs and Opportunities: A Companion Guide to PPG17' (ODPM, 2002). This study addresses the key issues pertaining to playing pitches and allotments which are identified in the guide.
- B.8 The guidelines recommend that audits of local open space needs should:
- ◆ Cover the differing and distinctive needs of the population for open space and built sports and recreational facilities including those working in and visiting areas;
 - ◆ Include audits of existing open space, sports and recreational facilities including usage, accessibility, costs and opportunities for new open space and facilities. Audits should establish the quantity and quality of spaces; and
 - ◆ Identify specific needs and quantitative or qualitative deficits or surpluses.
- B.9 PPG17 advises Local Authorities to use the information gained from their assessment of needs and opportunities to set locally derived standards for the provision of open space, sports and recreational facilities in their areas. Such standards form the basis for redressing quantitative and qualitative deficiencies through the planning process. The Companion Guide to PPG17 provides guidance as to how Local Authorities should identify and apply provision standards based upon assessments of local need.

Approaches to Planning Open Space Provision

- B.10 The recently published East of England Plan Draft Revision to the Regional Spatial Strategy for the East of England advises that local authorities, in consultation with local community groups, develop clear strategies for improving opportunities for informal recreation for both local residents and visitors, as well as making adequate provision for formal recreational activities which rely on the use of natural and man made features/ resources. In particular, local development documents will include policies which:
- ◆ Ensure satisfactory access to sites and facilities;
 - ◆ Seek to protect the most valuable existing recreational resources and assets from inappropriate development;
 - ◆ Seek to maximise the development of regional recreational assets such as urban parks, regional and country parks, woodlands and community forests, trails, bridleways and cycleway, and stretches of coastline that may attract visitors as well as meet local needs, informal recreation for local residents and visitors, as well as making adequate provision.
- B.11 The Department of Transport, Local Government and the Regions select committee in its report “Public Spaces: The Role of PPG17 in the Urban Renaissance” (February 2002) and PPG17 emphasise the need to recognise the multiple roles which open spaces perform and their relevance to the Government’s wider objectives for the urban renaissance and quality of life.
- B.12 The Government’s vision to make public spaces cleaner, safer, greener places that enhance quality of life is set out in ‘Living Places – Cleaner, Safer, Greener’ (ODPM, October 2002). The report recognises that the planning system has a key role to play in ensuring high quality public spaces and local environments and creating places for people.
- B.13 The Office of the Deputy Prime Minister recently published ‘Developing Accessible Play Space - A Good Practice Guide’ (November 2003). The need for guidance was highlighted in ‘Living Places - Cleaner, Safer, Greener’. The guide suggests that improving access to public play spaces for disabled children and other groups who currently under use them is central to the development of sustainable and inclusive communities.

Urban Green Space Task Force

- B.14 The Urban Green Space Tasks Force was set up in January 2001 to advise the Government on its proposals for improving the quality of urban parks, play areas and green spaces and take forward the open space proposals outlined in the Urban White Paper “Our Towns and Cities: the future”. Its objective is to create green spaces which are safe, accessible and sustainable and which cater for everyone. The use of innovative partnership working is encouraged. The Task Force recognises the importance of working with local communities to ensure high quality design and maintenance of these areas.
- B.15 The Final Task Force Report “Green Spaces, Better Places” was published in May 2002 together with its sister document “Improving Urban Parks, Play Areas and Green Spaces”. Whilst the report emphasises a comprehensive and integrated approach towards open space several of the recommendations relating to management and resources are applicable to allotments and open spaces with an element of outdoor sports provision.
- B.16 The report recommends long term strategies for managing supply and demand of open space in order to meet continuing social and demographic change. Furthermore, open space and recreation should occupy a more prominent role within wider corporate strategies to support community needs such as safety, health and services for children and young people, elderly people and those who are disadvantaged.
- B.17 The work of the Task Force also includes consideration of more integrated approaches to planning, designing, managing and maintaining green spaces, linking these to community strategies, local development plans, cultural strategies and area plans. It has researched the potential for improved partnerships and the creation of good practice networks to improve current practice.

Sports Policy and Strategy

- B.18 Sport England is the agency responsible for advising the Government on sports matters. It also acts as a statutory consultee on certain developments relating to sports pitches. In addition it is responsible for distributing several sources of funding and fostering:
- ◆ Promotion of social justice in sport;
 - ◆ Increased sports participation;
 - ◆ Development of community sports programmes and facilities; and
 - ◆ Appropriate planning for sport and recreation.

- B.19 Further reference to Sport England Guidance is made throughout this document where appropriate. The most relevant documents relating to playing pitch management and provision and the role of playing pitches in regeneration initiatives are:
- ◆ Towards a Level Playing Field (2003);
 - ◆ Planning Across Boundaries: Guidance on Local Strategies for the Development of Sport (2001);
 - ◆ Playing Fields for Sport Revisited (2000);
 - ◆ Sport and Regeneration (2001); and
 - ◆ Planning Policies for Sport (1999).
- B.20 The Cabinet Office has also been taking an increasing interest in sport through the Social Exclusion Unit and Performance and Innovation Unit.
- B.21 The Government's Policy Action Team report (PAT 10) on the contribution of the arts and sport to regeneration found that participation and the provision of services to support participation in sport can help address neighbourhood renewal by improving communities performance on the four key indicators of more jobs, less crime, better health and improved educational attainment. It also recognised that sport can play a significant role in strengthening local community cohesion. The report placed importance on connecting the sports development agenda with the rest of the social inclusion and community development agenda.
- B.22 A new Government report 'Game Plan: a strategy for delivering Government's sport and physical activity objectives' was published in December 2002 jointly by the Prime Minister's Strategy Unit and the Department for Culture, Media and Sport. It notes that sports participation can bring beneficial impacts to the participant including:
- ◆ **Health** – regular physical activity can significantly reduce the incidence of heart disease, stroke and some cancers and improve function and coordination, reducing the risk of accident and injury – especially amongst older people. Sports based physical activity is also beneficial to mental health, with the benefits strongest for participation in team sports;
 - ◆ **Education** – OFSTED reports in May 2000 found that schools that focused on sport and physical education raised academic standards more rapidly than their counterparts. They have also found that sport can reduce social exclusion, improve attendance records, and become hubs of community sports development; and

- ◆ **Social Exclusion** – Evidence exists to suggest that participating in sporting activities increases people's sense of integration into their local community. This community integration is then in turn likely to have beneficial outcomes such as reducing crime and increasing educational attainment.

Regional Policy

- B.23 The recently published East of England Plan Draft Revision to the Regional Spatial Strategy (RSS) for the East of England recognises that sporting facilities of all sorts, including built facilities and areas of open space such as playing fields, meet a diversity of sport and recreational needs. It sees participation in sport and recreation as being beneficial to individuals and society in a number of ways, including the creation of a healthier nation and promoting increased levels of social inclusion.
- B.24 Policy C4 of the spatial strategy states that in preparing plans, local planning authorities will liaise with Sport England and local community groups to determine the best locations for appropriate facilities. In consultation with local community groups, the needs should be assessed and strategies set out indicating the provision of additional community sport and recreation facilities, as well as for the protection and enhancement of existing sporting facilities.

LOCAL POLICY

Community Strategy

- B.25 North Norfolk Community Partnership "Our Community Strategy" provides a broad vision for the District. The Strategy includes actions for *Preserving the Environment and promoting outdoor enjoyment* and for *Improving Leisure and Culture*.
- B.26 Specific aims include the provision of enough outdoor leisure opportunities particularly for families and young people and getting more people involved in leisure and culture in North Norfolk (residents and visitors).

Corporate Plan

B.27 The North Norfolk Corporate Plan – ‘Getting Ahead’ sets out vision for the District, together with values, principles and priorities for supporting and serving residents, businesses and visitors. Amongst the priorities are improvements to the quality of life by promoting and developing more informal leisure and recreational options to complement existing sports and leisure facilities.

Best Value Review – Parks and Open Spaces and Foreshore

B.28 The Service Delivery Review in April 2001 provided an assessment of the service provided for the maintenance and management of the Council’s public open spaces, including, playgrounds, formal gardens, putting greens, bowling greens roadside verges, estate adoptions, informal open space recreation grounds, woodlands and other open spaces. It recognised the contribution of such provision to the aims of the North Norfolk District Council, improving quality of life, protecting the environment, developing the economy and involving the community.

B.29 Consultations were carried out as part of the Best Value Review in the form of various surveys including Parish Council Survey, Holt Country Park Users Survey, Parks, Beaches and foreshore user’s survey and a citizens Panel survey. Reference is made elsewhere to the results of these surveys in this report to consider how user’s opinions may have changed over time.

LOCAL OPEN SPACE PLANNING FRAMEWORK

North Norfolk Local Plan

B.30 The North Norfolk Local Plan Adopted April 1998 sets out policies to ensure that the open spaces within the District are protected and enhanced.

B.31 The most relevant policies relate to the following issues:

Recreation, Leisure and Tourism proposals

- ◆ Protection and Increasing Existing Open Space and Recreational Facilities;
- ◆ New Recreational Space and Open Space in Existing Settlements;
- ◆ Open Space and Recreational Space in New Developments; and
- ◆ Recreational and Leisure Facilities in the Countryside

Conservation / Protection Policies

- ◆ Access and Rights of Way
- ◆ Protection of Allotments
- ◆ Countryside protection
- ◆ Open Land Areas
- ◆ North Norfolk Coast Area of Outstanding Natural Beauty
- ◆ North Norfolk Heritage Coast
- ◆ Areas of High Landscape Value
- ◆ The Broads and its setting
- ◆ Undeveloped Coast
- ◆ Historic Parks and Gardens
- ◆ Protection of Nature

Site Specific Proposals and Policies

- ◆ Norfolk Coast Project
- ◆ Wensum Valley Project
- ◆ Proposed Playing Spaces at; Rear of Sutherland School Cromer; Runtun Road, Cromer; Junction of Church Lane and Links Road, Mundesley; north of Keets Road, North Walsham; Rear of the Splash Leisure Pool.
- ◆ Proposed Sports Facilities, consisting of; a sports hall in Fakenham, and an indoor swimming pool in North Walsham.
- ◆ Restoration of the North Walsham and Dilham Canal for water based recreation.

Landscape Character Assessment

B.32 The North Norfolk Character Assessment was completed in 1995 and identified the broad character areas and landscape types which can be found in North Norfolk and provides a guide on how the landscape can be conserved and enhanced. The District was divided into seven character areas together with more local level landscape types.

Local Transport Plan

- B.33 Under the Transport Act 2000 Norfolk County Council has a statutory duty to publish a Local Transport Plan (LTP) every five years. Norfolk's LTP covers the years 2001/02 to 2005/06 and was published in July 2000. The LTP describes the Council's Transport Strategy, provides details of the five-year investment plan, and has a set of performance measures used to tell whether or not the strategy is on track.
- B.34 The North Norfolk Council is contained within Area strategies for the North Norfolk Coast and Norfolk Rural Areas.

Quiet Lane Project

- B.35 'Quiet Lanes' are networks of specially designated rural roads where the use of motor vehicles is discouraged or limited for the benefit of pedestrians, cyclists and horse-riders. Signs are used at the entry and exit to every Quiet Lane route to differentiate them from normal roads. Walkers, cyclists, riders and cars all share the road without separation and nobody has priority. Users of Quiet Lanes are asked to travel with extreme care at slow speed. They must be prepared to meet other types of users and be considerate towards them. The Quiet Lanes project in Norfolk was the first pilot for the Countryside Agency's 'Quiet Roads' initiative.
- B.36 Norfolk's Quiet Lanes is a partnership project between The Countryside Agency, Norfolk County Council, Norfolk Coast Project, North Norfolk District Council and "Travelwise". The Quiet Lanes initiative is based on a network of minor roads linking towns and villages, making connections to off-road footpaths and bridleways. The network has been chosen and endorsed by local people.

Norfolk Coast AONB Management Plan 2004-2009

- B.37 This provides a framework for all organisations with a role in management of the AONB, which stretches across the North Norfolk Coast. The AONB covers an area of 453 square km of which 242.5sq km are within North Norfolk District Council boundaries. It runs for a length of 44.8 km in North Norfolk (of a total length of 90.8km), within which are public rights of Way totalling 287km.

CROSS CUTTING BENEFITS

B.38 The Urban Green Spaces Task Force Report states that “strategic planning for parks and green spaces must take place alongside strategies for housing, community development and safety and economic regeneration” (‘Green Spaces Better Places’, 2001). Local Authorities should recognise that most open space, with good planning and management, can perform multiple functions. Amongst the most important are:

Recreation

B.39 Parks and open spaces provide the setting and facilities for formal and informal recreation. From dog walking to playing football or bowls, it is important that people have a wide range of activities to choose from.

Culture, Education and Tourism

B.40 Many spaces form an important part of the cultural heritage of North Norfolk and are places where cultural activities take place. These activities can include community events, shows, carnivals and firework displays. The educational value of parks is also very important. Many schools make use of nearby open spaces for ecology and sporting purposes.

Economic Development and Regeneration

B.41 Relevant council programmes should include green space as an essential aspect of neighbourhood regeneration. Such space can significantly enhance the quality of life, promote community spirit and attract businesses and residents to an area.

Visual Amenity

B.42 Neglect can turn green spaces into eyesores. However, well maintained green spaces can provide variety in the urban scene and provide an outlook for those living nearby. They also contribute to a general appreciation of a local environment.

Community Identity

B.43 Parks and other open green spaces can contribute to a sense of community ownership, pride and belonging.

Health

- B.44 Parks can be promoted to encourage exercise and as places for quiet and relaxation, they also provide a 'lung' of fresh air away from the traffic and pollution of the roads.

Environment and Biodiversity

- B.45 Biodiversity plays an important part in North Norfolk character. Some sites may have potential to be corridors for flora and fauna. Green space also plays a role in collecting water run-off from developed sites, helping to mitigate against flooding.

CONCLUSIONS AND RECOMMENDATIONS

- B.46 This study is consistent with planning guidance and other supporting strategies at the national, regional and local level and takes into account new government thinking on sustainable development and the role that green space plays in the quality of life of residents.
- B.47 It recognises that most open space, with good planning and management can perform multiple functions and provide a variety of benefits which cut across the Council's strategic priorities. An Open Space Study is vital to bring all those who are responsible and have an interest together with a common purpose and a shared understanding of what can be done to enhance and maintain green space for the future.

APPENDIX C

Site Survey Guidelines and Pro-forma

C. SITE SURVEY GUIDELINES AND PRO-FORMA

Q2-4	<p>Site reference No.</p> <p>To be identified completed prior to survey by North Norfolk. Linked to development of GIS.</p> <p>Site name to be verified on site and updated if necessary</p>
Q6	<p>Ward - Desk based assessment</p>
Q7	<p>Area -To be measured by GIS (desk based assessment)</p>
Q8	<p>Photo ID no.</p> <p>The number should be unique to avoid confusion between sites. A representative photo should be taken of each site. Together with any illustrating queries (historic features) or relating to problems.</p>
Q9	<p>Description of the park.</p> <p>Aspects which should be included within the description include an indication of the type of uses present within the open space and the overall condition of the open space.</p>
Q10	<p>Type of Open Space</p> <p>Select main purpose. If there is more than one major role select secondary purpose.</p> <p>Country Park – <i>size threshold to be determined.</i> Natural/semi-natural greenspace or park with public access. May contain playing fields, but at least 40 ha for other pursuits. Adequate parking.</p> <p>District Park – <i>size threshold to be determined.</i> Landscape setting with a variety of natural features and a range of facilities including outdoor sports facilities and playing fields, children’s play for different age groups and informal recreation pursuits. Some car parking.</p> <p>Neighbourhood Park – <i>size threshold to be determined.</i> They have an important children’s play function. Provision for court games, important children’s play function, sitting-out areas, nature conservation, landscaped environment, and playing fields if the parks are large enough.</p> <p>Small Local Park or Open Space – These are open spaces less than x ha in size (threshold to be determined). These are likely to include gardens, sitting out areas, children’s play grounds and other publicly accessible open space uses.</p> <p>Provision for children and teenagers – Play areas (including LAPs, LEAPs and NEAPs), skateboard parks, outdoor basketball goals and ‘hanging out’ areas (including teenage shelters).</p> <p>Linear Open Space / Green Corridors – River and canal banks, canal towpaths, road and rail corridors, cycling routes, paths, disused railways, and other routes which provide opportunities for informal recreation (including nature conservation).</p> <p>Amenity Green Space – Includes informal recreational spaces and housing green spaces.</p>

	<p>This category would include green spaces in and around housing areas, large landscaped areas, and domestic gardens.</p> <p>Outdoor Sports Facilities / Playing Fields - Sites which are not located within a public park and which the primary role is for formal recreation. Sites include tennis courts, bowling greens, sports pitches, golf courses, athletics tracks, school playing fields, other institutional playing fields and outdoor sports areas. Categorise by ownership i.e. public/private/education.</p> <p>Allotments / Community Gardens / Urban Farms - Open spaces where the primary use is gardening.</p> <p>Cemeteries and Churchyards</p> <p>Natural or Semi-Natural Urban Greenspaces – Woodland (coniferous, deciduous, mixed) and scrub, grassland (e.g. down land, meadow), heath or moor, wetlands (e.g. marsh, fen), open and running water, wastelands (including disturbed ground), bare rock habitats (e.g. cliffs, quarries, pits).</p> <p>Civic spaces / pedestrianised areas – more formally laid out hard surfaced public spaces including squares, pedestrian streets, sitting out areas. These spaces would not normally have a formal recreational function.</p> <p>Green Spaces within Grounds of Institution - Open space located within the grounds of hospitals, universities and other institutions which are accessible to the general public or some sections of the public.</p>
Q11	<p>Site Ownership</p> <p>Public sector – includes spaces owned by other national, regional or local government agencies. Excludes utility companies and rail track owned land.</p> <p>Voluntary sector – includes community organisations, charities, clubs and societies, private schools.</p> <p>Private sector – Company sports grounds, land owned by statutory undertakers, university owned sites.</p>
Q12	<p>Site access arrangements</p> <p>General public access - unrestricted public access or management agreements for public access. This usually relates to publicly owned parks and open spaces.</p> <p>De-facto public access - general public use of spaces for short cuts, walks, playing games etc., without formal public access arrangements.</p> <p>Shared / dual use - formal arrangements exist for the use of open space which is not normally accessible to the general public. E.g. formal arrangements which allow the use of school sports facilities out of hours.</p> <p>Restricted access – access only to members of clubs or associations, where formal shared use arrangements are unlikely to exist. This could include private spaces within housing estates open to local residents or company sports grounds which are accessible and used by other teams not associated with the company.</p> <p>No access means that no public access is possible, usually for safety or security reasons (e.g. to railway embankments, vacant land, areas of wildlife etc). These areas are generally securely fenced off to prevent public access.</p>
Q13	<p>Landscape / Planning Designations</p> <p>Desk based assessment using adopted Local Plan</p>
Q14	<p>Does the open space fulfil a structural role?</p>

	<p>This question relates to the spaces structural role in the physical environment in which it is located. Physical structure within a large built up area provides a sense of orientation.</p> <p>Criteria 1 - sites clearly distinguishable from the built up area providing separation <u>between</u> different settlements or communities. This is likely to apply to large open spaces on the edge of settlements.</p> <p>Criteria 2 - contribution to the setting of townscapes which are important in a district or county context because of location or characteristics.</p> <p>Criteria 3 - whether it provides any impression from a major transport corridor.</p> <p>Criteria 4 - whether the local population is able to positively identify with the space (e.g. importance for leisure activities, regular visits, and important elements of their local or wider area).</p> <p>Criteria 5 - whether it contributes (by itself or with another space) to a separation/definition of the local neighbourhoods <u>within</u> the District, e.g. sites on ward boundaries or transport corridors.</p> <p>Criteria 6 - whether the local population is likely to attach a level of importance to the space due to the presence of recognisable features (e.g. historic buildings, sports clubs, significant landscapes or events).</p>
Q15	<p>Does the open space have a significant amenity value?</p> <p>This question relates to the level to which the space makes a pleasant contribution to the locality which people can identify with (e.g. views, landscaping, openness, settings etc).</p> <p>Criteria 1 - relates to whether the space is visible from adjacent buildings, transport corridors, footpaths or the wider area.</p> <p>Criteria 2 - seeks to determine whether the space is 'visually attractive'. Whilst this is subjective, the attractiveness of the space will be determined by positive features such as the condition, quantity, size and appropriateness of planting features; landforms, street scene; views etc., or negative features such as pylons, industrial features railway tracks etc.</p> <p>Criteria 3 - seeks to determine whether the space makes a contribution to the setting of the townscape surrounding it e.g. a green corridor providing a space for buildings to look onto it.</p> <p>Criteria 4 - assesses whether the open space provides visual relief of built up areas, such as spacing between buildings including whether the space provides a 'window' for views from adjacent buildings, road or built up areas.</p>
Q16	<p>Heritage Designations</p> <p>Heritage designations to be derived from Local Plan prior to site surveys. Information concerning the designation of a site, with exception to the Listed Building data, can be found within the local plan. Heritage desk top review to identify listed buildings.</p> <p>The on site survey should identify whether the open space forms part of the setting for any of the heritage designations and note the approximate distance of the site from the boundary of the designation.</p> <p>The criteria to determine whether the site meets one or more criteria for inclusion on the EH register of parks and gardens are listed below:</p> <ol style="list-style-type: none"> i. Sites with a main phase of development before 1750 where at least a proportion of the layout of this date is still evident, even perhaps only as an earthwork. ii. Sites with a main phase of development laid out between 1750 and 1820 where

	<p>enough of this landscaping survives to reflect the original design.</p> <ul style="list-style-type: none"> iii. Sites with a main phase of development between 1820 and 1880 which is of importance and survives intact or relatively intact. iv. Sites with a main phase of development between 1880 and 1939 where this is of high importance and survives intact. v. Sites with a main phase of development laid out post-war, but more than 30 years ago, where the work is of exceptional importance. vi. Sites which were influential in the development of taste whether through reputation or references in literature. vii. Sites which are early or representative examples of a style of layout, or a type of site, or the work of a designer (amateur or professional) of national importance. viii. Sites having an association with significant persons or historical events. ix. Sites with strong group value.
<p>Q17</p>	<p>Conservation and heritage</p> <p>i) Using a scale of 1-10 consider the state of conservation of <u>natural</u> features within the site</p> <p>Natural defined as (Geomorphologic features, woodland, scrub, grasslands, wetlands, open sand running water, wasteland and derelict open land).</p> <p>0,1, Very Poor / 2,3,4 Poor / 5,6 Fair / 7 Good / 8 Very good / 9 Excellent / 10 Exceptional</p> <p>ii) Using a scale of 1-10 consider the conservation of <u>landscape</u> features within the site including individual landscape components, the 'strength of character' of the landscape defined as its distinctiveness and integrity (with reference to Q29) and its overall condition.</p> <p>ii) Using a scale of 1-10 consider the <u>condition</u> of historic buildings and structures.</p> <p>Structures includes railings, gates and gate posts, walls, statues, fountains, bandstands etc.</p> <p>(Condition: the appearance and present management of the feature, along with its stability and likely rate of change from existing state).</p> <p><i>Not to be confused with survival. This can be defined as: <u>the percentage of the original structure or features which remains intact/extant</u></i></p> <p>Poor – little of the original style and finish can be recognised and the present condition will likely lead to further degradation.</p> <p>Moderate – most of the original style and finish can be recognised but unless the rate of degradation can be arrested it will lead to loss of the present intelligibly of the feature.</p> <p>Good – the feature survives in its perceived original condition and at present no factors are exist to depreciate its current form.</p> <p>Where appropriate refer to the extent/survival of historical features/structures in the comments box.</p>
<p>Q18a</p>	<p>Ecological value</p> <p>Desk top exercise to determine whether the site has any <u>existing</u> ecological designations.</p>

	Site surveys should identify sites which have potential to form local nature reserves.
Q18b	<p>Environmental role</p> <p>Floodplain to be determined from GIS overlay From Local Plan.</p> <p>On site survey to identify whether the site has any lakes, man-made drainage dykes/balancing ponds, or natural drainage features. Tick if trees/vegetation forms a shelter belt adjoining residential development.</p> <p>Tick the appropriate noise attenuation box if the site plays a role in alleviating the effects of noise either from traffic/rail, industry or other sources either by providing separation between the source and sensitive receptors (housing, schools etc.) or by providing a landscape buffer/shelter belt.</p> <p>Tick the appropriate air quality attenuation box if the site plays a role in ameliorating the effects of poor air quality from sources such as road traffic (from busy roads), or emissions/odours from industry. In order to fulfil this role open spaces should provide vegetation in close proximity to sources of air pollution.</p> <p>Sustainability section – to be completed by WDC at a future date</p>
Q19	<p>Educational role</p> <p>Sport / Organised Games – WDC information to determine existing use of parks by schools. Site assessment to determine potential use – In order for the sites to be suitable for schools use. The areas to be used should be free from dog fouling and other potential hazards.</p> <p>Nature / Environmental Study - To be determined from site survey. Sites should have a range of ecological/environmental features. For the sites to have an existing role there should be some form of interpretation provision (e.g. Boards, leaflets part of a trail, programme of events/activities). Education role should be assessed in terms of the potential benefit to the wider community (not just schools).</p> <p>Historical interpretation / understanding - Such sites should have been identified within Q16. For the sites to have an existing role there should be some form of interpretation provision (e.g. boards, leaflets part of a trail). Education role should be assessed in terms of the benefit to the wider community (not just schools).</p> <p>Rating</p> <p>Using a scale of 1-10 consider whether the provision of education/interpretation provision relating to the park is fit for purpose (considering the type of open space).</p> <p>0,1, Very Poor / 2,3,4 Poor / 5,6 Fair / 7 Good / 8 Very good / 9 Excellent / 10 Exceptional</p> <p>Comment on what additional facilities could be provided to make it fit for purpose (bearing in mind the type of open space it is).</p>
Q20	<p>Cultural role</p> <p>Criteria relating to existing events should be ticked if there is a formal outdoor venue on site (e.g. bandstand, stage, amphitheatre etc) which is in reasonable condition. Will be added to from consultation with WDC to determine sites where the events programme may not be visible.</p> <p>The comments box should describe the type of on site provision (i.e. type/s of venues present on site).</p>
Q21	<p>Recreational role</p> <p>The relevant boxes should be ticked if the site performs one or more of the recreational role identified.</p>

	<p>Active Recreation - a major role is where at least 40% of the usage of the site is likely to be dedicated to the type of activity identified.</p> <p><i>Noisy sports to be identified</i></p> <p>Informal recreation - a major role is where it is considered that the identified activity accounts for at least 40% of all on site activity.</p> <p>A minor role is where an activity is likely to take place but does not constitute a major activity.</p> <p>N/A should be ticked where the site does not support the recreational activity identified.</p> <p>Dedicated provision should be identified if there are facilities for undertaking the activity.</p> <p>Informal provision should be ticked if there are no formal facilities but where other evidence suggests an activity takes place.</p>
Q22	<p>Children's Play Provision</p> <p>Note the total number of pieces of children play equipment.</p> <p>Type of play equipment</p> <p>Tick all boxes that apply to the type of each play item:</p> <p>Balancing, e.g. beams, stepping logs, clatter bridges, or graphic line elements such as hopscotch.</p> <p>Rocking, e.g. see-saw or spring animals.</p> <p>Climbing or agility, e.g. frames, nets, overhead bars, or angled climbers.</p> <p>Sliding, e.g. traditional slides, straight or angled 'fire-fighter's' poles.</p> <p>Social play, e.g. sheltered areas or child seating.</p> <p>Additional items might focus upon rotating, swinging, jumping, crawling, viewing (e.g. ground graphics), or counting.</p> <p>Quality</p> <p>Tick the boxes for LEAPs and NEAPs if the children's play area meets most of the following criteria:</p> <p>Criteria for a LEAP:</p> <ul style="list-style-type: none"> • It caters for children of 4-8 years in age • It has an activity zone a minimum of 400m² in area • It contains at least 5 types of play equipment (i.e. balancing, rocking etc.) • There is adequate space around the equipment for children to play games of 'tag' and 'chase' • It has a barrier to limit the speed of a child entering or leaving the facility • There is at least 10 metres between the edge of the play area and the boundary of the nearest property • The buffer zone includes planting to enable children to experience natural scent, colour and texture. • Some individual seats are provided for parents or carers • It has a notice to indicate that the area is for use by children only • It has a litter bin <p>Criteria for a NEAP:</p> <ul style="list-style-type: none"> • It caters predominantly for older children • It has an activity zone a minimum of 1000m² divided into 2 areas; one containing a range of play equipment and the other provided with a hard surface of at least 465m² (minimum 5-a-side pitch) • It contains at least 8 types of play equipment

	<ul style="list-style-type: none"> • There is adequate space around the equipment for children to play games of 'tag' and 'chase' • It has a barrier to limit the speed of a child entering or leaving the facility • There is at least 30 metres between the edge of the play area and the boundary of the nearest property • The buffer zone includes planting to enable children to experience natural scent, colour and texture. • Some individual seats are provided for parents or carers • It has a notice to indicate that the area is for use by children only • It has litter bins at each access point and in proximity of each group of seats • It has convenient and secure cycle parking

Good and safe access

How well is the open space linked with neighbouring areas? (consider both formal and informal connections and the number of entrances to the open space)

Is there adequate car parking spaces either within or adjacent to the open space? (Note if parking has to be paid for)

Are spaces well defined/maintained?

Is there provision for cycling within the open space including cycle routes (larger spaces) and cycle parking (if there are facilities which cyclists are likely to frequent)

Are roads, pathways and cycle ways constructed using appropriate materials are they level for safe use, are edges well defined, surfaces clean and debris and weed free?

Signage

Is the open space easy to locate?

Is there adequate signage to the open space? (if appropriate)

Is there a site plan within the space identifying the location of facilities/amenities? (if relevant)

Is there appropriate directional signage within the open space? (e.g. finger posts)

0,1, Very Poor / 2,3,4 Poor / 5,6 Fair / 7 Good / 8 Very good / 9 Excellent / 10 Exceptional

Equal access for all

Are there any physical barriers which prevent/obstruct access for pedestrian or cyclists? (Physical barriers may include busy roads with absence of pedestrian crossings in close proximity to the open space)

Are there barriers which would deter/preclude certain user groups from accessing the space (e.g. young children, women, the elderly etc)

Are there any physical barriers of access for people with mobility difficulties?

Flights of steps with no ramps, inadequate pathways, lack of disabled parking, toilets etc.

HEALTHY, SAFE AND SECURE**Safe equipment and facilities**

Do any of the facilities or equipment within the open present a potential risk to users either because they are damaged or poorly maintained?

Personal security

Consider whether potential park users may be deterred from using the park for reasons of safety and security. Consider the following issues:

Is there natural surveillance from neighbouring properties?

Are there potential ambush areas?

	<p>Is there vandalism of park buildings/changing facilities which presents a poor image of the space Is the space well frequented? Does it have regular flows of people on routes through the open space Is the space well provided with lighting if it is likely to be used or has potential to be used at night Do the approaches to the open space feel open or do they feel intimidating? Does the park have park rangers or similar?</p> <p>Dog fouling</p> <p>Is there evidence of dog fouling within the open space? Are children's play areas and sports pitches fenced from dogs? Are there clearly defined dog walks or areas for Dogs? Is there provision of bins for dog waste?</p> <p>Appropriate provision of facilities</p> <p>Does the park have the range of facilities (variety, size and number) which would be expected for the type of open space it is? Consider: Children's play provision (for different age groups) Spaces for different functions, informal recreation, walks, active sport, spaces for nature Amenities (toilets, café, seating, shelters, club house, changing facilities) Provision for a range of age ranges Does the open space provide a varied and stimulating environment/landscaped Is there provision for interpretation facilities if there are features of interest</p> <p>Quality of facilities</p> <p>Are the facilities which are provided fit for purpose? Consider the quality of facilities, whether they are in use, their physical condition/state of repair and their attractiveness to existing and potential users.</p>
	<p>0,1, Very Poor / 2,3,4 Poor / 5,6 Fair / 7 Good / 8 Very good / 9 Excellent / 10 Exceptional</p> <p>CLEAN AND WELL MAINTAINED</p> <p>Are facilities within the open space clean and well maintained? (Check for signs of graffiti/vandalism, broken glass etc). Check toilets and other indoor facilities if access is available</p> <p>Litter and waste management</p> <p>Are there enough bins? Are they emptied regularly enough? Are there facilities for recycling? Is there evidence of fly tipping/abandoned cars etc?</p> <p>Grounds maintenance and horticulture</p> <p>Consider the number, variety, condition and health of planted areas within the park including grassed areas, trees, shrubs and bushes and formal planted areas.</p>

	<p>Is there the range of vegetation types that may be expected for the type of open space? Are there unmanaged or overgrown areas?</p> <p>Buildings and infrastructure maintenance Park buildings (roofs, windows, signs of graffiti/vandalism, arson) Fences/site boundary (safe and secure) Other structures (bandstands, historic structures, information/interpretation points) Lighting (working) Paths etc. Good condition</p> <p>Equipment maintenance Park benches, Play equipment, Drinking fountains, etc.</p>

Q34 Playing Pitch Assessment

Field	Explanation	Max score as % of Total score.
Pitch ID	Number used on site to identify pitch, usually Pitch 1, Pitch 2, etc	N/a
Sport	Describe sport and pitch type, e.g. football – junior, rugby league – senior, etc (should reflect Q23).	N/a
Grass cover	Choose % cover from options. This grass coverage is for the whole of the pitch/field area. Bare goal mouths would represent about 5% each. Weed cover should be treated as 'bare patches of grasses'. The presence of weeds can significantly reduce the performance of a grass pitch. Estimate the % of weed cover on the pitch and subtract it from the total grass cover %. The common weeds are dandelion, clover, plantain, daisy and white clover.	7%
Length of grass	The length of grass will depend on the sport, e.g. rugby will require slightly longer grass than football.	7%
Size of pitch	Does the pitch look like it meets the recommended pitch dimensions given by the NGB? There may be instances where the pitch does not quite meet these dimensions, but is still adequate for its users. Recommended pitch dimensions are listed in the appendix.	4%
Safety margins	Same as above. Where safety margins do not meet the NGB dimensions, they may be adequate if there is sufficient run-off onto	4%

	other pitches (although this is not ideal).	
Slope of pitch	This is the overall gradient and cross fall for the pitch. The general categories to use are flat, slight, gentle, moderate and severe. While it will not be possible to measure the fall of the pitch, the following are the recommended falls: <ul style="list-style-type: none"> for winter sports, a fall of 1:80–100 along the line of play is acceptable, and 1:40–50 cross fall for cricket, the square should be level, and a 1:80–100 fall for the outfield and flat for the wicket. 	7%
Evenness of pitch	Is the pitch 'bumpy', rutted or uneven? A completely flat pitch scores <i>Excellent</i> .	7%
Dog fouling	Is there any evidence? If not, assume <i>none</i> . The user survey may indicate any problems.	4%
Unofficial use	Such as informal 'kick-about', unbooked use, etc. The user survey may help with this, plus comments from grounds maintenance.	4%
Damage to surface	Is there any evidence of problems such as golf divots, motorbike/car tracks, etc?	4%
Training: number of hours per week	Number of hours per week that the pitch is used for training. User survey may help with this. If not known, score 0 hours.	7%
Changing Accommodation	Is the pitch served by changing accommodation	7%
Winter sports only – posts/goals	Are posts upright, straight, painted, not damaged? For football, are there net hooks on both sets of posts? If posts are removable or dismantled, score <i>Excellent</i> .	4%
Cricket only – wicket protection	Is the cricket wicket protected when not in use, for example, roped off, movable covers, etc?	4%
Line markings	During the season are the line markings clear and straight? If line is burnt/marked with creosote, score <i>Poor</i> .	4%
Training area	Are there any training areas that are separate from the main pitch, such as marked grids, separate goals?	4%
Comments	Record any specific information that will help you when you come to analyse the data.	4%

About the Changing Accommodation

Overall quality	What is the overall quality of the accommodation? Does it look well-maintained, clean, user friendly, etc?	24%
------------------------	--	-----

Evidence of vandalism	Is there any evidence of vandalism, such as damage to doors/windows, broken glass, graffiti, fire damage, etc?	12%
Showers	First, are there showers, second, how good are they? The quality issue to be supplied by the user survey. If it is not possible to assess quality, tick Yes-OK.	12%
Toilets	As above	12%
Car parking	Is there purpose-built car parking for circa 20 cars, which is not on the playing field? What is the quality – surfaced, broken glass, etc? If there is no parking tick <i>Poor/non</i> .	7%
Links to public Transport	Has the site good links to the local public transport network? Good = within 10 mins walks of stop, station, hub.	12%
Security	Does the accommodation look secure? Is there evidence of break-ins? The user survey may be useful.	12%
Segregated changing	Are there self-contained changing rooms? Are there communal showers? Can male and female teams use the accommodation at the same time? This information could come through the site managers.	7%

APPENDIX E

Focus Group Meetings

E. FOCUS GROUP MEETINGS

E.1 Planning Policy Guidance Note 17 suggest various means to obtain information from local users in the formulation of policies and strategies for provision of open space, sport and recreation facilities.

E.2 In order to gain local people's perceptions and views about provision and needs for open space, sport and recreation provision within the District a telephone survey of 500 residents was undertaken and two focus groups were held.

E.3 The Focus Groups were held at North Walsham (to the east of the District) and Fakenham (to the west) and took the form of guided discussion groups. Names and background to all contributors are provided at Appendix A to the report.

FOCUS GROUP 1 - FAKENHAM

Existing Provision

E.4 The existing provision of open space depended on what we defined as open space. The typology of open spaces could include large areas of Natural open space in North Norfolk, including woodland and parks, children's play areas and large parks, beaches and allotments.

E.5 Catchments areas, for some of these facilities/open space types, was recognised as being over 15-20 miles into Kings Lynn and Hunstanton for example.

E.6 On occasions the wrong type of space was being imposed on places.

E.7 The perception was that more open space and sporting facilities e.g. swimming pools was available to the east of the District, where for example the new Victory Swimming Pool had been successful in tapping "latent demand".

E.8 There was a need for greater dual use and provision to make them economically viable/sustainable in a rural area.

Local Expectations and Needs

- E.9 Changing needs and priorities of people affects open space and recreational needs.
- E.10 Lack of provision in west (e.g. swimming pools) meant people were travelling outside District or elsewhere in District.
- E.11 Other types of recreation needs not met – e.g. motor sport grass off road tracks – better to plan for than have to deal with the conflict later.

Type of Open Space/Sports provision communities want to see.

- E.12 Five main themes were noted;
 - ◆ Inviting –Places should be welcoming to visitors with clearly signed entrances and well maintained
 - ◆ Imaginative – There was a need for spaces to provide different experiences, including variety within the type of spaces available for all sectors of society
 - ◆ Challenging – not simply imposing regular types of spaces but including activities for people within spaces.
 - ◆ Involved - not imposed upon communities or simply consulted upon, but actually implemented and planned by the communities the spaces serve.
 - ◆ Reflect size of village and development to which they related. Small villages could not afford and did not require some types of formal open space, but to sustain the community there was a need for spaces to act as communal meeting places.

CONSTRAINTS

- E.13 Transport - the biggest constraint to use of sports and open space. Although Community Transport schemes could help, in a District such as North Norfolk it was recognised that there was always likely to be reliance on the car, which could be prohibitively expensive.
- E.14 Schemes to overcome these access difficulties were generally only short terms, one off initiatives. There were particular difficulties in carrying young people to sports facilities. Could clubs provide a way of coordinating this? Clubs were only a small part of overall use of sports facilities, open space and recreation.
- E.15 Recognition that village's, could not sustain some types of facility, due to costs of maintenance and staffing.

- E.16 Changes to “coastal strip” and gentrification of area may mean that facilities became less affordable to local population. For example car parking charges had risen in area. Would this also happen to sports facilities? A local pass/car parking badge had helped overcome this.
- E.17 Coordination and Information – There was a lack of coordination and knowledge of what places and spaces are out there and how to access them. (This has been a regular theme throughout this project from Atkins Experience).
- E.18 Provision, maintenance, and sports clubs and facilities often rely on the voluntary sector and on enthusiasm of people running spaces/facilities. This can be turned into a good thing if people including young people can have a say in provision and design of open space and recreation facilities. This is the way of encouraging greater voluntary sector involvement.

FOCUS GROUP 2 – NORTH WALSHAM

Existing Provision

- E.19 Poor sports provision, within towns including an absence of Astro turf pitches.
- E.20 New swimming Pool (Victory) had been a huge success tapping a hidden need, including for older people within the town and surrounding catchments area.
- E.21 No communal space for people to gather outdoors. Community growth could be achieved through access to open space. The closure of village schools and a lack of community meeting places had led to loss of sharing of experiences, connections with others and lack of coordination.
- E.22 Retention of Common Land. The picture of common land was complicated. What was public, accessible and available as public open space?
- E.23 Isolation of rural families, from others in community are not helped by the loss of village schools, which previously acted as a community meeting point. (See Para 3.3)
- E.24 Poor facilities and infrastructure, on open spaces. E.g. toilets, signage and simple things like; lack of seating along pedestrian corridors.
- E.25 Sites in towns in particular could be managed better and were often underutilised and lacked imagination in terms of use and facilities provided.

Local Expectations and Needs

- E.26 Retention of Common Land, as an important local resource.
- E.27 Decent sports provision within the towns
- E.28 Good access and coordinated access from villages to towns and vice-versa.
- E.29 Wider variety/different experiences, for different types of open spaces.

Types of Open Space and Sports Provision people want to see

- E.30 More open space on fringes of settlements – the urban/town edge was not being well managed, with development threatening land on the edge of towns, but it represented a good resource for further open space.
- E.31 Better utilisation of existing open space within town – these were perceived to be lacking in imagination and poorly managed.
- E.32 Better facilities within open spaces – e.g. toilets, seating and signage
- E.33 Flexible spaces to allow them to be used for children
- E.34 Larger Sports clubs in towns and main settlements provided location for recreation from a wide catchments area (25 mile radius to larger clubs).
- E.35 Youth section of sports clubs was thriving and required improved infrastructure facilities to cater for needs (e.g. changing facilities for both sexes.)

Constraints

- E.36 Access and Transport were seen as major obstacles both to getting out of the towns and larger settlements to open space outside and vice-versa.
- E.37 Funding: Because land is often managed by Town councils, this may prevent opportunities for grant aid and assistance. For improvement to open space/sports provision (disqualified from applying for funding assistance).
- E.38 Coordination between groups, sports clubs to establish where underutilised sites could be put to greater use. e.g. MADRA sits (Mundesley and District Recreation Association) is an underutilised resource.

- E.39 Conflicting uses of open spaces –e.g. extreme recreation such as motor sports/motor bikes in areas/woods. These should be catered for somewhere.

Meeting User Needs

- E.40 Good practice for transport included the Broads Hopper bus and trailer scheme where cycles were able to be carried and dropped off en-route. This gave people the opportunity to access open space areas.
- E.41 Improved cycling facilities: Linear routes, including the opening of the North Walsham - Dilham canal to encourage access between Aylsham and North Walsham in a direct route away from motor car.
- E.42 Weavers Way could be used better to provide dual-use to allow a strategic cycle route to be formed and greater seating areas along strategic footpaths/coastal paths.
- E.43 Infrastructure – basic facilities within open space such as seating, toilets and signage.
- E.44 Cater for older people by encouraging provision of active recreation facilities such as the swimming pool.
- E.45 Youth centres within towns to allow alternative recreation and include transport from villages to centres.
- E.46 Younger people should be involved in the decisions being made on the use and provision of open space facilities.
- E.47 More open space on outside of towns/edge of settlements
- E.48 Engagement with local landowners for improved footpaths and use of agri-environment schemes to improve edge of towns for diversity of open space uses.
