

SADLERS WOOD

NORTH WALSHAM

LEARN,
PLAY,
EXPLORE

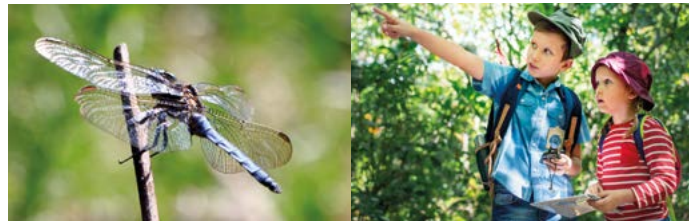

Sadlers Wood and the surrounding open space lies at the eastern side of North Walsham. It provides an important natural resource that serves a large residential area and the wider community, with visitors from further afield always welcome. The site is a Green Flag Award Winner.

The wood is predominantly a plantation of scots pine dating back to the 1950's but it also contains some veteran oak, sweet chestnut and hornbeam trees. In spring the woodland floor is covered in a carpet of bluebells. The surrounding area consists of grassland for informal games and natural grassland where native flora is encouraged.

PLAY

Sadlers Wood plays home to a small children's play area, which includes swings, a slide, a zip line and supernova roundabout.

WILDLIFE

Tawny owls live in the woods along with many species of bat, soprano pipistrelles and common pipistrelles, on warm days butterflies can be seen along the wild flowers of the grassland meadows, and in the summer dragonflies can be seen dashing about hunting for prey.
