

East and West Beckham Boundary Proposal Maps

This Review seeks to tidy the historical boundary anomaly by continuing the boundary line between the two parishes down the eastern side of the property at 9 Church Road until it meets the roadway itself. It will then continue eastwards along Church Road completely until it joins the existing boundary just beyond the track on Otters Lane.

The properties affected by this boundary change are numbers 9 to 12 Church Road (inclusive) which currently have the existing boundary line dissecting their properties. However this proposal would not result in any change in terms of Council Tax parish precept or Governance.
