Fund Aims	Funding for new, or improvements to existing, community and neighbourhood infrastructure projects including those that increase communities' resilience to natural hazards, such as flooding. This could cover capital spend and running costs.	Funding for the development and promotion of wider campaigns which encourage people to visit and explore the local area.	Community measures to reduce the cost of living, including through measures to improve energy efficiency, and combat fuel poverty and climate change.	Strengthening local entrepreneurial ecosystems, and supporting businesses at all stages of their development to start, sustain, grow and innovate, including through local networks.	Strengthening local entrepreneurial ecosystems, and supporting businesses at all stages of their development to start, sustain, grow and innovate, including through local networks.	Supporting decarbonisation and improving the natural environment whilst growing the local economy. Taking a whole systems approach to invest in infrastructure to deliver effective decarbonisation across energy, buildings and transport and beyond, in line with our legally binding climate target. Maximising existing or emerging local strengths in low carbon technologies, goods and services to take advantage of the growing global opportunity.	Tailored support to help people in employment, who are not supported by mainstream provision to address barriers to accessing education and training courses. This includes supporting the retention of groups who are likely to leave the labour market early.	Funding for investment in capacity building and infrastructure support for local civil society and community groups	Capital grants to develop, restore or refurbish local natural, cultural and heritage assets and sites.	Funding (capital grants) for impactful volunteering and social action projects to develop social and human capital in local places.	Funding (capital grants) for small scale investment in micro and small enterprises in rural areas. Including capital funding for net zero infrastructure for rural businesses and diversification of farm businesses outside of agriculture to encourage start up, expansion or scale up of these businesses where this involves converting farm buildings into other commercial or business uses.
