Managing Performance

Delivery against the key priority objectives for the period 1 April to 30 June 2023

Local Homes for Local Need

During the first quarter of 2023/24 58 households on the Council's Housing List were housed, which is lower than the average of 71 households housed per quarter for the 2022/23 year (when a total of 285 households were accommodated over the whole year) and 81 households housed in the first quarter of 2022/23.

No new affordable homes were completed during this quarter, against a background of low completions in 2022/23 because of the impact of the pandemic in delaying the planning and delivery of pipeline schemes and because of Nutrient Neutrality delaying starts on some schemes (eg. Stalham – a total of 145 affordable units are delayed by the Nutrient Neutrality issue). 39 units of affordable housing given planning permission in the quarter.

At the end of the first quarter we had 72 households in Temporary Accommodation.

6 properties with works completed under the Government's Warm Homes grant programme this quarter. This is fewer than hoped for due to lack of contractor capacity and complex rules which appear to exclude many homes and applicants from eligibility – this issue is not unique to North Norfolk and is being pursued with partners in the Norfolk Warm Homes partnership.

Local Plan submitted for Examination providing new context for future housing delivery – examination expected to commence before end of 2023.

The Council has promoted small builders working with RSL partners in bringing forward small sites for housing development, notwithstanding the constraints of Nutrient Neutrality.

Boosting Business Growth and Sustainability

Launched the Invest North Norfolk webpages on the Council's internet providing a one-stop shop for advice and support for businesses in north Norfolk across a range of issues including grant funding, workforce and skills development, sites and premises, planning and licensing – Home | Invest North Norfolk (north-norfolk.gov.uk).

Launch of the UK Shared Prosperity Fund and Rural England Prosperity Fund – Home | UK Shared Prosperity Fund and Rural England Prosperity Fund (north-norfolk.gov.uk)

Works continue to a number of properties in North Walsham town centre supported with Heritage Action Zone Building Improvement Grant monies.

Local Plan submitted for Examination providing new context for future employment and business growth investment – examination expected to commence before end of 2023.

Customer Focus

Successful delivery of the Local Government elections on 4 May 2023 – involving 138 candidates for 40 district seats and 775 nominations for town and parish councils, including 13 contested parish areas. Average turnout for the District elections was 38.73%, almost the same as 2019 (38.31%). Successful introduction of Voter ID across the District with no significant issues experienced.

Face to face customer contacts in the quarter were 2733 as against 2438 at the Council's Cromer and Fakenham offices – an increase of 12% against the same quarter last year.

Telephone calls to the Customer Contact Centre was 13,341 for the quarter compared to 11,331 in the same quarter in 2022 (an increase of 17.7%) reflecting the Contact Centre taking on more frontline service calls including Benefits enquiries this year, and fielding calls for the 4 May elections. Average waiting time for the quarter was approx. 8.9 minutes, but this had improved to 4.3 minutes for the month of June.

The Council's work facilitating the development of the North Norfolk Youth Council through the Democratic Services Team continues – the outcomes of which were shared at the Full Council meeting on 19 July.

Managing Performance

Climate, Coast and the Environment

Ground works commenced on the solar car port at The Reef, Sheringham.

A Carbon Audit of the Council's property assets and operations has been completed with data informing future asset management works, with an example of work being progressed being the investment made in the provision of new thermal insulation, doors and windows to the Council's Cornish Way industrial units in North Walsham at a cost of £170,000.

Local Plan submitted for Examination providing new context for future environmental policies around climate change and Net Zero – examination expected to commence before end of 2023.

Quality of Life

143,575 users of the Council's leisure and sports centres against a target of 140,860 which was the figure achieved in the same quarter in 2022. Support for the Victory Super Sprint Triathlon at North Walsham in conjunction with Everyone Active.

Visitors to Country Park events – 318 against a target of 320 and a figure of 519 in the same quarter in 2022.

RNLI beach lifeguards provision in preparation for our beaches at Sheringham, West Runton, East Runton, Cromer, Mundesley and Sea Palling although East Runton, Mundesley and Sea Palling have lost their Blue Flag status for 2023 due to a small number of water quality issues during 2022, the reasons for which the Council continues to discuss with Anglian Water and the Environment Agency.

Contract meeting held with Openwide to discuss forthcoming summer season for the Pier Pavilion Theatre with positive level of advance bookings reflecting 2019 (i.e. pre-COVID).

Opening of the new Queens Road toilets in Fakenham to include new Changing Place facilities as part of the Council's commitment to provide such a facility in each principal settlement. Ongoing investment to provide similar new facilities at Vicarage Street, North Walsham and first phase of The Leas, Sheringham.

Financial Sustainability and Growth

At 30 June 2023, we had collected 29.06% of Council Tax against a target of 28.75%; and 33.03% of Business Rates collected against a target of 27%.

Strong occupancy of Council-owned commercial property with 90.48% occupancy for industrial premises against a target of 80% (19 out of 21 properties) and seasonal concessions.

Updated Asset Management Plan

Conclusion

Continued strong progress was made over the first quarter of 2023/24 in areas of core service delivery and in respect of key Corporate Plan projects and objectives as detailed in the report.

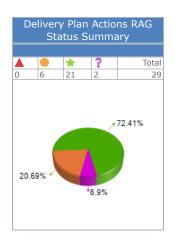

This was achieved alongside the preparations for the Full Council elections on 4 May and the delivery of the new member induction programme and the forming of the new council administration, new Committees and work undertaken to prepare a new Corporate Plan for the period 2023 – 2027, which was approved through Committee and Council processes in the July cycle of meetings.

 Objective 1.2.2t 		Performance	*			
Increase the Supply of Housing - Delivery by Others - De-risk Housing Development • Strategic Housing • Economic	Encourage small and medium-sized builders and developers	Comments	26/07/23 This action is now complete. We have an offer to SME builders working in partnership with Broadland Housing Association and the Flagship Housing Group. The offer is on the Council's website Home Small sites for new homes in North Norfolk (north-norfolk.gov.uk). The Council's Comms team has raised awareness via social media. We have had offers of land as a result of the promotional activity. As yet no SME developer has been in contact.

		Total Income - Building control. Annual dataset. Data last updated: 23/03/2023. Actual data: The Total Income - Building control for North Norfolk was 359 GBP (000) in the latest recorded period of 2020/21, this was less than the previous recorded period in 2019/20 with 420 GBP (000) and less than the figure 5 years ago in 2016/17 with 416 GBP (000). Area comparisons: North Norfolk had a greater income than the mean for North Norfolk CIPFA nearest neighbours of 344 GBP (000) in 2020/21, the districts in this comparison group had a minimum of 0 GBP (000), maximum of 1,238 GBP (000), a 25th percentile marker of 395 GBP (000) and a 75th percentile marker of 21 GBP (000). Ranks: North Norfolk was ranked 15th out of 39 districts in the East of England, and 45th out of 181 districts in England for the latest recorded period, rank 1 being the highest income. Source name: Department for Levelling Up, Housing & Communities, obtained via LG Inform Plus. Please note, the benchmarking data per month is not available, this dataset shows the data per year.
RE 0.28 (HR2) Speed of	Performance (VTD)	
BE 028 (HB2) Speed of processing: change in	Performance (YTD)	We have seen a slight improvement to our Housing
circumstances for housing benefit and CT support claims		Benefit Speed of Processing times for changes in circumstances as a result of a reduction in our outstanding workloads. We have also cleared some older outstanding enquiries from customers where we have been waiting for further evidence to be provided before the enquiry could be processed. Customers frequently report changes in circumstances over the phone, and we are reviewing options around the handling of telephone calls to ensure prompt recording and assessment of the change end to end. Using a vacant post, we have recruited a permanent Visiting Officer to support collection of evidence from vulnerable and/or elderly customers. We are also continuing to train new staff to increase the resource for processing customer enquiries, and we are recruiting further Business Support Apprentices who will undertake administrative duties for the team.

		Jun 2023
	Comments	The number of long term empty properties as a percentage to the tax base has seen a reduction over the
		past few months to 30 June 2023. The reasons for this
		are due in part at least, to the market. There are a few
		intervention strategies designed to prevent properties
		from being empty and encouraging owners to bring very
		long-term empties properties back into use. The current
		numbers of empty properties are being monitored by the
		Revenues Manager, however there is insufficient capaci
		to participate in active enforcement against empty home
		especially considering the complexity around this. The
		new Housing strategy includes this issue, but any
		resources will need to be targeted given local housing
		needs and recognise that there are rarely instant solution
		in bringing long-term empties back into use via the corporate Enforcement Board.
